## How to Read the API Service Symbol

### 1. PERFORMANCE LEVEL

Gasoline engine oil categories (for cars, vans, and light trucks with gasoline engines): Oils designed for gasoline engine service fall under API's "S" (Service) categories. The higher the second letter the better the oil. Diesel motor oil categories (for heavy-duty trucks and vehicles with diesel engines): Oils designed for diesel-engine service fall under API's "C" (Commercial) categories. The second letter is the oil rating.

### 2. VISCOSITY GRADE

The measure of an oil's ability to flow at certain temperatures. Vehicle requirements may vary. Follow your vehicle manufacturer's recommendations on Sae Oil Viscosity. In cases with two numbers the one with W (winter) indicates cold viscosity and the other number is always operating viscosity.

### 3. RESOURCE CONSERVING or ENERGY CONSERVING

These designations apply to oils intended for gasoline-engines cars, vans, and light trucks. Widespread use of "Resource Conserving" or "Energy Conserving" oils may result in an overall saving of fuel in the vehicle fleet as a whole.

### 4. MULTIPLE PERFORMANCE LEVELS

Oils designed for diesel engine service might also meet gasoline engine service. For these oils the designation is "C" category first followed by the "S" category.

### 5. THE API SERVICE SYMBOL WITH CI-4 PLUS

The "CI-4 PLUS" designation identifies oils formulated to provide a higher level of protection against soot-related viscosity increase and viscosity loss due to shear in diesel engines. When originally introduced, CI-4 Plus identified CI-4 oils meeting a higher level of performance. CJ-4 oils include all CI-4 PLUS performance requirements.

## MARVEL MYSTERY OIL ADDITIVE

Improve your engine and your fuel economy Marvel Mystery Oil Additive can improve and protect your car from the inside. Add it to every tank of fuel and every oil change, and you'll clean and lubricate fuel injectors and carbs, improve fuel economy, help prevent valves from sticking or clattering, and prevent oil breakdown from extreme temps

SYMBOL OF QUALITY

- Premium starting power
- Long, trouble-free life

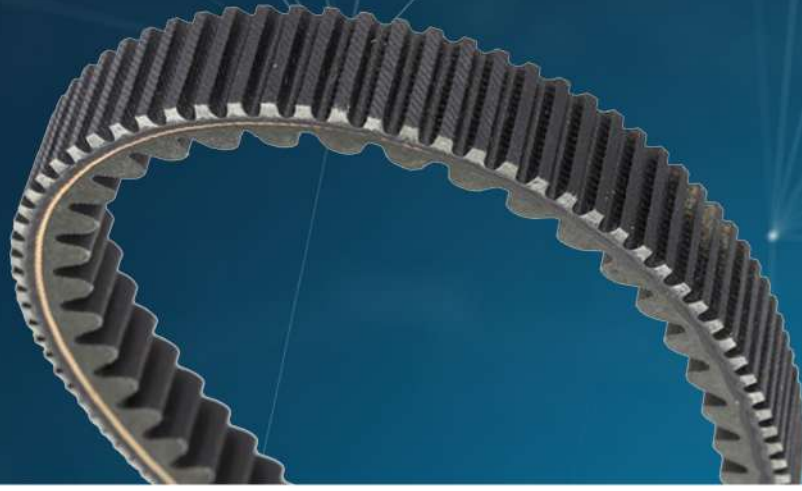

Deka motive power batteries have set the standard for the absolute highest quality and most reliable performance in the industry. Deka's vast product line is built for virtually any motive power application and rises above other battery offerings - time and time again.

**MONBAT**<sup>®</sup>  
THE SOURCE OF POWER

Monbat batteries are manufactured for power and endurance. Power you can trust, that is consistently strong in a battery that will last impressively long to cover any application or vehicle.

## **DAYCO BELTS**

**WHERE THE RUBBER MEETS THE ROAD IN TESTING, RESEARCH, DEVELOPMENT  
AND MATERIALS SCIENCE.**

Dayco has been developing OE quality belts since the early 1970s. And, throughout the years, they have worked meticulously to invent new belt technologies with unique chemistries and materials for a range of drive system designs and applications. Utilizing the highest quality rubber, EPDM, polymer compounds, carbon fibers, aramid and more, their belts provide longer lasting performance, excellent temperature resistance, less slippage and reduced noise and vibration.

# **DAYCO®**

*MOVE FORWARD. ALWAYS.™*

## **DAYCO HOSES**

We offer a wide range of premium Dayco branded hoses, clamps and connectors for automotive and heavy-duty applications that feature high quality materials and compounds to ensure the safe and effective transfer of fluids or gasses from one point to another.

**DRIVEN BY POSSIBILITY.**

Gates Corporation is driven to push the boundaries of materials science to engineer products that continually exceed expectations. Gates specializes in Micro-V Belts, V-Belts, Synchronous Belts, Automotive Timing Belts, and Specialty Belts. Gates belts are engineered to keep you moving with OE quality fit for a reliable, long-lasting performance.

Performance Tool focuses on providing a superior level of service and quality products that meet customers' expectations of product that carries our "Guarantee of Satisfaction".

Offering a selection of:

- Hand tools
- Sockets, wrenches, screwdrivers
- Specialty tools
- Promotional items
- Grease guns & accessories

# **Autolite**

IGNITING YOUR PASSION™

Every car is different, and so is every driver. Whether you just need a reliable set of copper replacement plugs or want to upgrade to peak performance, Autolite has you covered. As one of the leading manufacturers of ignition products in North America

### ***The Ignition Specialist***

Get your engine running with a full line of spark plugs, coils and wire sets from NGK. Our ignition parts cover 95% of vehicles and are engineered to the highest durability and operational standards to meet or exceed OE requirements. NGK spark plug products are designed to meet the stringent requirements of auto manufacturers worldwide, ensuring the best performance and reliability for all types of engines.

**WE LOVE ENGINES!**

For 80 years, WIX Filters has been among the elite filter manufacturers. Part of the MANN+HUMMEL family of brands, the WIX Filters product line includes oil, air, cabin interior, fuel, coolant, transmission, and hydraulic filters for a wide range of vehicles and equipment types.

## A Pioneering Spirit

Since 1915, our innovation has driven us to develop new technologies in order to solve the world's most complex filtration challenges. We offer filters and parts for diesel engines, hydraulic and bulk storage tanks – plus custom OEM filtration systems for equipment manufacturers.
